A Message to Motorists

A ROBE for motoring is a necessity, not an accessory—those who go without this covering, endanger their health.

Illnesses among motorists are often traced to this carelessness. The pleasant, warm day changes suddenly—a drop in temperature—no robe—ankles exposed—doctor's bills.

Ask for the world-famous Chase Plush Robes at stores listed below. Famous since 1867—the choice to-day of discriminating motorists. Warm—durable—fast colors—better and more economical than wool robes—specify "Chase."

FIVE VICTIMS OF FOOTBALL

The Lowest Number of Fatalities in United States for Some Years

OPEN STYLE OF PLAY MAKES A DECREASE

Most of Deaths on Teams Not Under Strict Physical Requirements

Chicago, Nov. 29.—Football, the roughest of all outdoor sports, claimed five victims during the 1919 season, which virtually closed with Thanksgiving day games, according to reports to the Associated Press to-day. The number of deaths—the lowest in years—was five less than in 1918, and seven under the toll of two years ago. There were 18 lives lost during the 1916 season, and 16 in 1915.

Development of the open style of play to supplant the dangerous smashing game, is mainly responsible for the decreasing number of fatalities in the opinion of gridiron experts. The dangers of a dozen years ago, in the old style smashing game, included hurdling, flying tackles and vicious offensive tactics, have been almost entirely eliminated in the style of football, with a corresponding decrease in the number of deaths.

Virtually all of the victims of the 1919 season were players participating in games not conducted under strict physical requirements. Defenders of the popular college sport pointed out that, with one exception, the victims were high school players who entered the game without expert training.

The small number of fatalities this season was declared to be remarkable, the experts said, as the game was played more extensively than before pre-war days. The victims included Gardner Dowe of New Haven, Conn., a member of the Connecticut Agricultural college eleven, who died Sept. 22 from concussion of the brain. He was injured playing against New Hampshire college.

ARMY FAVORITE OVER THE NAVY

Uncle Sam's Warriors Meet on the Gridiron To-day for Their Annual Clash.

New York, Nov. 29.—Unsettled weather early to-day with prospects of rain, failed to dampen the enthusiasm of the 45,000 ticket holders for the annual football battle between the army and navy at the Polo grounds this afternoon. A light rain that fell during the night made the gridiron heavy and slippery—a condition that handicapped the lighter eleven from Annapolis.

The game, the first to be played between Uncle Sam's rival service schools since 1916 on account of the war, attracted the usual colorful crowd. High officials of the army and navy and representatives of the diplomatic corps were among the rosters. Army gray and navy blue predominated in the

Helpless In Bed With Rheumatism Until He Took "FRUIT-A-TIVES"

MR. ALEXANDER MUNRO

R.R. No. 1, Lorne, Ont.
"For over three years, I was confined to bed with Rheumatism. During that time, I had treatment from a number of doctors, and tried nearly everything I saw advertised to cure Rheumatism, without receiving any benefit. Finally, I decided to try 'Fruit-a-tives' (or Fruit Liver Tablets). Before I had used half a box, I noticed an improvement; the pain was not so severe, and the swelling started to go down."

I continued taking this fruit medicine, improving all the time, and now I can walk about two miles and do light chores about the place."

"This trouble lasted three years. I made up my mind to try a free sample of Cuticura Soap and Ointment. I bought more, and in a week I was healed." (Signed) John Peima, 85½ Elm St., Lawrence, Mass., Sept. 6, 1918.

great grand stands. The cadets and midshipmen arrived during the morning from West Point and Annapolis, respectively, and marched to the field, headed by their bands.

The navy's goal, attired in a costly robe of blue, had the "edge" on the army's mule, spending the evening in a room all by himself on the second floor of one of New York's best hotels, while the braying pet of the army had to be content with sleeping quarters in a stable. The coats of the rival mascots were waged on the outcome of the contest.

The insistent but vain demand for tickets continued up to the start of the game. Officials said that interest had never before been so great in the history of the series, which dates back to 1899. Tickets brought fancy prices from speculators.

The army ruled the favorite in the betting, giving odds ranging from five to four and ten to one.

Long Drawn Out Controversy Settled and Awards Made.

London, Nov. 29.—The long drawn out controversy as to who should have credit for invention of the tank as an instrument of warfare came to a close here Thursday with announcement of awards by a special commission appointed to inquire into rival claims.

Sir William A. Triton, who served in the ministry of munitions, and Major Wilson were awarded £15,000 jointly, and other smaller prizes went to minor contributors.

While the commission spoke in high terms of the part taken in developing the tank by Winston Spencer Churchill, minister of war, it held to the position that he was a servant of the state and entitled to no emolument in return for specific services.
